

- Highly likely to recommend

Bought a Single Family home in 2012 in Ardenwood, Fremont, CA.

Summary:

I would like to highly recommend Linda. My wife and I was interested in looking for a home in Fremont but did not really know where to begin. We know Fremont is a good area but it is also pretty big and we are unfamiliar with the area. My wife saw Linda's info and decided to contact her. Linda's team was very friendly, helpful and responsive. We described our situation and they immediately gave us bunch of valuable tips and advices on our questions and concerns: e.g. schools, market situation, things to consider when getting loans, pros and cons of different areas...etc. They were able to quickly gives us some listing and brought us around to look at various houses so we get a practical feel for what we are looking for. Both my wife and I feel very comfortable asking her questions, from remodeling repair costs, to economies, to things to consider if we want to eventually sell. They've been in this field for so many years, so they have great insights. My wife and I enjoyed going around looking at the various houses and never feel rushed or pressured at all. In fact, we paused looking for houses for a few months to attend to other things. Then we came up with new requirements as our needs have changed, and Linda was again right there for us and helped us looked for what we need. This time, the market is quite complicated and we faces much more competition. But Linda is both very detailed and quick acting and we were able to close on a house that both my wife and I really liked. All throughout the process, they patiently let us know what to do and expect and answered all our questions. They tracked everything so that the whole process is very smooth. Thank you so very much Linda!
