

Highly likely to recommend

Sold a Single Family home in 2011 for approximately \$700k in Ardenwood, Fremont, CA.

Summary:

Recently we sold our old house in Ardenwood, Fremont, CA. We want to let you know how much we appreciate Linda's excellent service and hard work. She is very professional and has extensive knowledge of the market in Bay Area. She coordinated everything and worked hard to help us a lot to prepare our house sale. She also gave us a lot of advice about what needs to be improved and then recommended contractors to work on it. Our house got multiple offers in the first week it was on the market, and it was sold more than the asking price in one month. Linda worked closely with the buyer agent to make the entire process smooth and painless. We are so impressed by her knowledge, professionalism and especially her passion. We believe any people can do an excellent job only if they are passionate about what they do.

We are very fortunate that we can meet Linda and her husband Leon. It was our pleasure to work with them just like working with our good friends.

Linda and Leon, We want to say "Thank You" from the bottom of our heart for your excellent service and all the help!
