

- Highly likely to recommend

Sold a Single Family home in 2011 for approximately \$975k in Weibel, Fremont, CA.

Summary:

We sold our house recently, to be exact escrow closed on 5-3-11. My husband and I made a good choice for selecting her to be our agent. We talked to different agents & after talking to her we decided she is the one and we were fortunate to have Linda as our agent. She works hard and help us a lot to prepare our house for sale. She gave us advise what needs to be improve and then recommended contractors to work on it. She has high standard. The final stage it was done so beautiful that even my children said that we should keep the house. We were tempted but we had to move to another city so we went ahead and put the house in the market. She made herself available when we call her with questions and when she can not respond right away she always make sure she calls back. We also want to Thank her husband Leon for being there and always help us in every way. We were impressed with her knowledge, professionalism and patience. After it's in the market for 2 weeks we had an offer. We had to go out of the country for 2 weeks and she handled the process while we were gone. She would keep us up to date via e-mail when we were out of the country. She did a good job. When we came back it was ready to close escrow. Our home got sold more than the asking price & the process was done in a month. Linda made the entire process smooth and painless. Overall I would not hesitate to work with Linda again. I highly recommended her to my relatives, friends or anybody for that matter. I would hire her again either to sell or buy a house. Thanks Linda for Job Well Done!
