

- Highly likely to recommend
Bought a home in 2011.

Summary:

We were on the market to buy our second home and we have dealt with real estate agents in the past. We met Linda accidentally and after a brief interview we decided to go with her. We were pretty impressed by her local knowledge in the Mission Area especially around schools and neighborhoods. We decided to go with her and that was perhaps the best decision we made in the entire process. She was just fabulous throughout the process, she knew so many of the local listing agents in Mission and that made things really easy for us. For example, we would walk into an open house and the agent would turn out to be an old friend of hers or a neighbor around the house would know her because she helped them buy a house. Finally, we had our own Loan Agent and she teamed up with him very well even though her company processes loans as well. In conclusion if you need sound advice and a ?real area expert? you should work with Linda.
