

**- Highly likely to recommend**

**Bought a Single Family home in 2012 in Weibel, Fremont, CA.**

**Summary:**

**We are very happy that we went with Linda for our home purchase. Our experience with her was excellent. She and her husband have been very helpful, reasonable, prompt and understands the real estate market well. Their trusted advise came very handy during the whole home buying process. They both helped us with anything we needed the help with and post close referred good contractors too. I would highly recommend them to anyone without any doubts at all. - posted by Singhanian**
